USER GUIDE

MULTI-ZONE WIRELESS LED / LED RGB CONTROLLER

LightBox is the world's smallest, wireless controller based on the Bluetooth technology of the fourth generation. It allows you to control lighting LED lighting - LED color (RGB) and single-color using a smartphone or tablet.

Important: Before starting the installation,

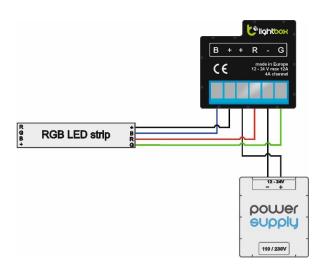

make sure the power is off and you read the following instructions carefully.

Do not connect the device to loads exceeding recommended values.

INSTALLATION

Connect the power supply and light source (e.g. the LED strip) according to the scheme:

1. Make sure that the device is properly connected and the antenna is far away from metal objects, electrical cables, etc., which may affect the signal.

	TECHNICAL SPE	CIFICATIONS	
	lightB	ох	
Electrical parameters			
Supply voltage	12 – 24 V DC	Channels	3
Max current	12A	Current /channel	4A
Control	PWM		
	Physical char	acteristics	
Dimensions	39 x 33 x 20 mm	Operating range	From 0 to + 40°C
Housing	made of polyurethane composition not containing halogens, self- extinguishing for thermal class B (130 °C)	Protection	inverted polarization, ESD
	Communi	ication	
Technology	Bluetooth Low Energy 4.0	Independent channels	3
Transmission	bi-directional	Power signal	1mW
Range	up to 20 m in open space (inside buildings the range may be limited to 10m depending of the	Compatible devices	Apple iPhone, Apple iPad, iPad Mini, Android4.3 and newer.

2. Turn on the power.
